

Monthly slope-and-equilibrium beta (all hourly temperatures, no shift). Dashed grey = beta=1 (no buffering); below = buffering.
 Black = observed HOBO. Linetype: solid = full/ATBD/ALS, dashed = d_opt/opt. 4 HOBO plots binned by LAI_ALS.

Scenario family ● LiDAR ● Sentinel-2 ● S2 rescaled->LiDAR ● Fusion (ALS x S2-timing)
